bowes QUICK CONNECT/DISCONNECT COUPLINGS

Bowes offers a complete line of popular sizes from including our original Bowes/75 Series Couplings. All Bowes Couplings are airtight under all working pressures up to 300 PSI. Most Bowes Couplings are furnished as standard in Brass, however most sizes are available in zinc plated steel.

bowes 50 SERIES Our new 50 series (Mini-Bowes), is a smaller version of the 75 (3/4") series coupling. The coupling is a quarter turn quick disconnect coupling, made from steel and plated with a zinc yellow chromate. We offer male and female couplings with a 1/2" hose shank, 1/2" NPTF male threads, or 1/2" NPTF female threads. We also offer 1/2" National British Pipe Threads. The 50 series couplings do not interchange with the 75 (3/4") series, the 125 series, or the 150 series couplings.

bowes 75 SERIES SWIVEL Bowes Manufacturing coupling specialists have designed a new swivel style coupling. The new design allows full rotation of an outer sleeve which will eliminate hose kinking. The new swivel couplings will interchange with all male Original Bowes/Bowes 75 Series Couplings

Can be used with air or water

Use with rubber and nitrile hose

Temperature range -50°F to +250°F

Not rated for vacuum

bowes 75 SERIES GARDEN HOSE Mechanically locked, preventing accidental disconnection. A simple push and quarter twist connects, and a pull on the locking sleeve with a quarter twist permits the male and female ends to be separated. Rugged brass construction with garden hose threads (GHT). These couplings are full flow with a large flow capacity. Couplings interchange with the Original Bowes / Bowes 75 series couplings.

A - 30 DEG. ANGLE

Highly desirable for applications where horizontal outlets are used. Hose falls freely from valve outlet without kinking, ensuring free air flow and elimination of damage to hose.

3/4"	1"	52006	\$157.00

FWL - 4 WAY VALVE

Large inlet supplies sufficient air to assure ample air directed into any one of three outlets. Valve is arranged to control supply to and exhaust from both ends of double-acting piston.

OUTLET	INLET	PART #	LIST
3/8"	3/4"	52012	\$102.00
1/2"	1"	52010	\$143.00
3/4"	1-1/4"	52011	\$186.00

FWL IS EQUIPPED WITH ALEMITE FITTING

LW - 2 WAY OUTLET VALVE

Ideal for applications where a liberal and quick exhaust is desired. Liberal lap eliminates possibility of leakage. Perfect exhaust control gives any speed of "draw" or "return" when used with rollover machines.
